SPEAKING OPPORTUNITIES

8 seminars for trade will be presented at IDS Vancouver 2018 as part of Miele Professional Trade Day (Friday, September 21). These seminars make up the educational component of IDS Vancouver and are designed to be both entertaining and relevant to the industry at large. As these seminars are submitted for both CEU and LU professional designation credits, the content of the sessions must be educational and applicable to design professionals and industry members.

Speakers and seminars will be selected based on varying criteria, including: relevancy to the industry, timeliness, speaker experience and how the topic blends with the rest of the seminar program. Each session typically runs for one hour plus Q&A.
